ACCEPTED

Household rubbish and commercial quantities of recyclables

ACCEPTED

Hard waste including metals, household appliances, bricks, rubble and garden waste

Detox your home

Free household chemical disposal service.

Some household products contain dangerous chemicals. You can't pour them down the sink or put them out with your rubbish or recycling because they can harm the environment.

Old cleaners, paint, batteries, used brake fluid, compact fluorescent globes and many other products can be collected.

It's easy, safe and free!
